I like pencils. I get stumped if I ever try to imagine
a world without them; what would I use to draw?
Thank you, oh pencil I shall repay my debt to you
in just thankless pencil prices have not risen, it's
the same now as it was 30 years ago. Well is that?
I wonder as I stare at the wall, it must be because
the God of pencil makers is considered of as poor
comic book writers. Thank you very much Sir!
